

SINGLE CYCLE INSEMINATION CONTRACT - CHILLED SEMEN

2026 Breeding Season

Select stallion :

- ☐ Golden West NRW
- ☐ Numerus Clausus
- ☐ GvK Daily Star
- ☐ Dependence AT

This contract is for the provision of chilled semen from the nominated stallion ("the stallion") and is made between the individual or entity named in the schedule (hereinafter referred to as "**the mare owner**") and **Dynamik stallions (trading as Dynamik Stallions - ABN 60 207 018 210)** of 474 Lowlands Road, Mardella, Western Australia 6125 (hereinafter also referred to as "**Dynamik Stallions**")

Under this agreement chilled semen from the stallion nominated in this contract will be provided for insemination into the mare named and referred to in the Schedule, (hereinafter referred to as "**the mare**") at the agreed fee and upon the following terms and conditions as set out below.

Section 1 - Dates of Chilled Semen Availability :

- Chilled semen collection will be available from Monday 21st September, 2026 until Wednesday 23rd December, 2026
- Chilled semen collection is available on weekdays and Saturday mornings until 12 noon (WA time) ONLY.
- NO EXCEPTIONS will be made to the dates specified.

Section 2 - Mare Information Schedule :

This contract incorporates the Mare Information Schedule which must fully and accurately record the mare's brands, pedigree and all details pertaining to the mare. This schedule must be returned to Dynamik Stallions prior to a collection of semen being undertaken.

Dynamik Stallions will email the mare owner an invoice for the relevant fees upon receipt of this signed and completed contract. This invoice must be paid in full prior to collection of semen from the nominated stallion.

Dynamik Stallions strongly recommends that mares have a scan at their Breeding Vet prior to purchasing a service in order to assess their mare's breeding soundness. It is strongly recommended that a mare returns a clean swab prior to breeding to ensure that the mare has no underlying infection or issues that will prevent the mare from becoming pregnant.

Section 3 - Collection of Chilled Semen :

- This contract provides a SINGLE insemination of chilled semen for one (1) cycle. For Eastern states clients a back-up dose will be provided in the case that the mare does not ovulate at the time predicted.
- The dose/s provided are only allowed to be used for the mare named in this contract.
- Only one (1) pregnancy is allowed for this contract.
- In the case of Embryo Transfer, if two pregnancies are successfully transferred, a second service fee must be paid for the second pregnancy once pregnancy is confirmed in the recipient mare.
- This contract does not hold a pregnancy guarantee.
- Chilled semen will only be provided to a veterinarian or a qualified AI technician.
- Semen will only be provided after the service fee, collection fee and transport fees have been paid in full to Dynamik Stallions and this stallion contract has been signed and received by Dynamik Stallions.
- Transportation and collection costs for the semen are payable by the mare owner within 7 days of receiving an account from Dynamik Stallions, where these fees have not been invoiced prior to collection.

Section 4 - Quality of Chilled Semen :

All of the Dynamik Stallions standing at public stud have excellent motility and fertility with excellent progressive motility for chilled transport of semen. All Dynamik Stallions are between 80 and 100 percent motile upon collection throughout the breeding season.

Any claims in relation to the quality and motility of the semen must be made to Baldivis Veterinary Hospital by the Veterinarian or AI Technician who performs the insemination either immediately prior to or within 60 minutes of insemination. Baldivis Veterinary Hospital acts on behalf of Dynamik Stallions to collect and package the semen from the Dynamik Stallions. A form stating the fertility and motility of the semen will be provided at the time of packaging the semen for transport. Baldivis Veterinary Hospital retain a sample of semen that can be tested and compared to the sample provided. If there have been problems caused by the transport of the semen Baldivis Veterinary Hospital can arrange to send another sample if this is found to be the case.

Section 5 - Live Foal Policy :

This Single Cycle Insemination Contract does not hold a pregnancy guarantee but does hold a Live Foal Policy for a pregnancy achieved in the 2024 breeding season only, with the following conditions:

- The Live Foal Policy will take effect only after the mare has had a positive pregnancy test at 45 days with a confirmed healthy embryo. The Live Foal Policy will then be in effect until the foal is 48 hours old.
- Written proof of the 45 day positive pregnancy test must be provided to Dynamik Stallions by the mare owner's veterinarian in order to claim the Live Foal Policy.
- Written proof of the loss of a foal within the 48 hours after birth must be provided to Dynamik Stallions by the mare owner's veterinarian in order to claim the Live Foal Policy.
- One dose only will be provided for the Live Foal Policy.
- The Live Foal Policy does not cover the loss of a foal in the event that the mare dies as a result of accident or illness unrelated to giving birth to the foal.
- Transport and collection fees will apply.

Section 6 - Schedule of Fees :

- The service fee for a single cycle contract is \$1,200.00
- Collection and packaging fee for chilled semen is \$335.00.
- For WA clients breeding their mare at the Baldivis Veterinarian Hospital, the collection fee will be charged by the Baldivis Veterinarian Hospital.
- Transport fees are additional where applicable—\$200.00.
- All amounts referred to in this agreement are inclusive of GST.

Section 7 - Transport of Chilled Semen :

Dynamik Stallions accepts no responsibility for delays in freight to the mare owner's specified delivery location once the semen has left the stallion owners collection point.

WA Clients - please call Baldivis Veterinary Hospital and ask to speak to an Equine Nurse for quotes regarding mare breeding and scans on 08 9524 1466.

Section 8 - Stallion Service Certificate:

A Stallion Service Certificate will be completed and provided to the mare owner upon written advice that the mare has received a positive pregnancy test and that any outstanding fees have been paid.

A copy of the Stallion Service Certificate will be kept on file by Dynamik Stallions.

This agreement incorporates the mare's marking and information sheet which must fully and accurately record the mare's brands, markings and details, and be returned to Dynamik Stallions at the same time as this document and prior to a collection of semen being undertaken.

Section 9 - Death or Injury to the Stallion :

In the event of the death or injury of the nominated stallion which renders him unable to breed before the collection is made, the fees will be refunded.

I/We, the mare owner/s have read and understood the conditions of this Breeding Contract from Pages 1, 2, 3 and 4. Upon signing this contract I/we understand that I/We are entitled to a Live Foal Guarantee if the mare achieves a pregnancy in the current breeding season only.
